

Why Hire Individuals Supported by DSC?

Most employers seek to hire employees who are on-time, efficient and reliable. By doing so, businesses have the opportunity to expand and develop in ways that will create more revenue.

Read below to see what one manager has said about the addition of two individuals supported by DSC that he hired.

“The consistency of John and Charles’ prep work has allowed us to expand our menu which was something we were unable to do before they began working for us. They are a part of our team and we enjoy having them in the kitchen.”

~Restaurant Manager

Establishing Collaborative Working Relationships

Through DSC's Community Employment program, an opportunity exists to create a relationship with area businesses that will fulfill a specific need for the business while also providing opportunities for individuals with developmental disabilities to reach their employment goals.

DSC Employment Specialists (ES) provide on-the-job training and follow-up support every step of the way and maintain regular contact to offer further assistance when new training opportunities arise or when the employee wishes to expand or change jobs.

As a result of hiring an individual who is supported through DSC, training is performed by the ES, thus lowering recruitment and training costs for the business.

Success for all.
